President's Message

As May moves us a little closer to summer, we are delighted to be welcoming new members into our club. We encourage all of you to get involved in the activities such as voter registration, planning of events, community activities as well as county and southern division meetings.

The Art Hop in Banning on April 25th was a fun event and our "booth" was able to register a number of new voters. Thank you to those who worked – Sheila Bryan, Bonnie Holle, Donna Lester, Ginny Smith and of course Lois Jordan, our Voter Registration chair who made all of the arrangements.

Our May meeting brings the awarding of scholarships. Be sure to come and hear these young people read their essays and meet our Project Uplift adult winner. Thanks to our scholarship chairs Agnes Merz, Cheri McRae and Dalene Tappata for working on this annual event.

June 6 is the Cherry Festival parade in Beaumont. Thanks to Pat Pinz, we will have a tractor-pulled hay wagon as our "float". Call me if you like to help decorate and/or ride in the parade. The festival is from 6/4 to 6/7 during which we will have our booth for voter registration and also be promoting membership. Lois Jordan is in charge of scheduling so call her to volunteer. It's a lot of fun!

Our June 24th meeting will be a catered picnic at the Gilman Ranch and Museum. We need advance reservations for this, so be prepared to sign up at the May meeting or call Ginny Smith to secure your reservation. We are encouraging all members to invite friends and neighbors (aka prospective member) to this event. Cost includes lunch and a tour \$15).

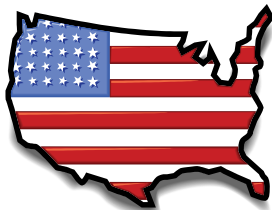

A gentle reminder: How would you feel if you arrived at a meeting of SGPRWF, looked for a place to sit, and at three different tables were told that the empty chairs were "taken"? This very thing happened to a new member recently. If you want to sit with your friend(s), you should arrive together. We can no longer "save" seats – it will be first come, first served. I know all of you will make a special effort to avoid this unfortunate thing from happening again. We want all of our members to feel welcome – especially the new ones!

PIRATES IN THE UNITED NATIONS AND WASHINGTON, D.C.

OPPOSITION RESEARCH/NATIONAL ISSUES ————— SHEILA BRYAN

We haven't heard much lately about the Law of the Sea Treaty. Because we thought we had defeated this outrage that would allow the U.N. to control the seas of the world – 70% of the earth's surface! Our protests and letters stopped it twice, but the New World Order lovers never give up. We can't give up either. John Kerry, Chairman of the Senate Foreign Relations Committee intends to push for ratification and bring it to the Senate any day. If the Senate ratifies this treaty, the U.N. will

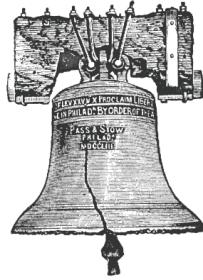

be halfway toward its goal of world government. Thousands rose up in anger and filled the capitol with petitions and phone calls with their indignation. Call Harry Reid, who said he will bring it up – without hearings. Call (202) 224-3542 and say **NO** to this Piracy on the High Seas.

The Somali Pirates must have access to American TV and so have discovered that they can now claim that the ships that

were trying to deliver food and medicine to starving people were just there to pollute their waters and dump toxins into the sea. The pirates now claim they were there because they loved their pristine environment. If the Law of the Sea Treaty takes care of controlling the seas – the suggestion that global warming is man-made will take care of controlling the air we breathe, and the earth we walk on. The transformation of the America we know is now in the hands of a President that believes that humans are not capable of governing their own lives. He be-

believes that the United Nations must have world power and has declared so on many occasions. He believes in the vision of Al Gore and his "Inconvenient Truth". Every child is fed this brain-washing movie in our schools over and over again. They are frightened into believing that man is destroying their earth.

Tom DeWeese of the DeWeese Report (freedom21.com) has the clearest handle on this global warming hoax that I have ever read. We know that the media refuses to report that 700 scientists from all over the world have met at the Heartland Institute and testified that man-made global warming does NOT EXIST. U.S. government atmospheric scientist Stanley B. Goldenberg says, "It is a blatant lie put forth in the

media that makes it seem there is only a fringe of scientists who don't buy into Global Warming". Harvard scholar and climate scientist Willie Soon said, "It's the sun, stupid".

Then why are our leaders pressing to impose huge cut backs in energy use, with more taxes and rules and regulations that will bring an already damaged economy to its knees. Tom DeWeese gives us the reason – global corporations have heavily invested in the promised "green" economy. Their dollars are promoting the lies and changing our lives. "Going Green" has become (in the parlance of our Treasury Sec. and Tax Cheat, Tim Gaithner) TOO BIG TO FAIL! Global Warming was never about protecting the environment –

it was always about enforcing global governance on our planet.

We have been presented a new language just like Aldous Huxley's "Brave New World". "Sustainable Development" and "Social Justice" are collectivist premises that Karl Marx would have loved. In 1976 the U.N. Habitat report said, "Land cannot be treated as an ordinary asset, controlled by individuals and subject to the pressures and inefficiencies of the market. Private land ownership is also a principle instrument of accumulation and accumulation of wealth, therefore, contributes to social INJUSTICE." Got it? NO PRIVATE PROPERTY.

HOLD ONTO YOUR WALLETS

By Senator Robert Dutton

Just weeks after passing the largest tax increase in California's history, Democrats in the Legislature have introduced several pieces of legislation that aim at taking more money from you, a California taxpayer, in order to quench their unending thirst for spending your money.

Remember, these bills that will raise additional taxes on everything from those who use plastic shopping bags to an additional tax on alcohol, come on top of the \$12.5 billion of taxes already increased when the Legislature passed the revised budget on February 19th.

Conveniently, Democrats are now arguing that the additional taxes are needed because the recently passed budget is already out of balance by \$8 billion, according to the non-partisan Legislative Analyst's Office.

Assemblyman Curren Price, a Democrat from Los Angeles, said in a San Francisco Chronicle Examiner story this week, "I think we're in a period in time where everything's on the table. We're going to be \$8 billion down before the ink dries on the current budget."

But what Assemblyman Price and other Democrats don't tell you is that in the legislative process these bill ideas have been in the works for months – meaning it really didn't matter that there is another budget short-fall, they intended to introduce these bills to raise your taxes no matter what.

I also suspect that Democrats will try to once again argue that these bills to take more money from your household are fees, not taxes, so they can attempt to get these taxes approved without the state required two-thirds vote of the Legislature.

I cannot support any attempt to call a fee a tax. Also know that I will continue to fight any attempt by the Democrats to raise your taxes. Instead of trying to find ways to raise your taxes, the focus must be on growing and expanding the economy. There is still a lot of waste in state government and much more can and must be done to ensure that California is getting the best bang for its buck when spending taxpayer dollars.

I've attached a link to a story in the San Francisco Chronicle outlining how Democrats are trying to take more money from your hard-earned paycheck. www.sfgate.com/democrats

Here is a list of some of the specific bills being proposed by Democrats in the Legislature to raise your taxes. For specifics on any of these bills, go to www.leginfo.ca.gov.

- AB87 (Davis) / SB531 (DeSaulnier): Fees for shoppers who use plastic bags.
- AB89 (Torlakson) / SB600 (Padilla): Increase the cigarette tax.
- AB390 (Ammiano): \$50 per ounce tax on marijuana, which would be legal for recreational use.
- AB462 (Price): 1 percent income tax for individuals who earn more than \$1 million a year, to fund public schools and universities.
- AB656 (Torrico): Oil severance tax to help fund the state's community colleges and univs.
- AB1019 (Beall) / SB558 (DeSaulnier): Tax or fee on alcohol.
- AB1082 (Torrico): Sales tax on pornography.
- AB1342 (Evans): Cities and counties would be allowed to raise income taxes and vehicle licence fees.
- SB96 (Ducheny): Increases the income tax rate on the state's wealthiest residents while lowering the rate for some middle-class taxpayers.
